

Announcement:

Inhabitech Partners with Yonomi

Providing Health and Wellness data for Yonomi One.

[Inhabitech](#) and [Yonomi](#) are happy to announce a partnership where the Hestia® platform from Inhabitech will be integrated with Yonomi One to deliver health and wellness information for older adults aging in place.

Yonomi's Yonomi One provides Inhabitech's Hestia® access to an unprecedented number of smart home devices and ecosystems, enabling the customer to pick and choose what hardware they want in their home.

Inhabitech provides Yonomi with expanded opportunities and capabilities in the [Aging in Place market](#).

Beginning in 2019 this will be the third local Colorado partnership for Inhabitech building momentum for the coming year .

[Yonomi](#)

Yonomi is the IoT company creating a more connected smart home. We build cloud-based technologies for companies and people looking to create wonderful experiences in the home.

[Inhabitech](#)

Is a company focused on creating products and services that support better aging experiences.

Hestia® is Inhabitech's flagship product, a system designed to provide insights into your loved one's health and wellness.

For more information about partnership opportunities, or to talk about aging well through the use of smart technologies, please contact Inhabitech, LLC. at Info@Inhabitech.com.
